Dr. Jennifer Winter,
Program Director, Canadian Northern Corridor Research Program
Assistant Professor of Economics and Scientific Director, Energy and Environmental
906 8th Avenue S.W., 5th Floor
Calgary, AB T2P 1H9

Dear Dr. Winter,

The Northern Alberta Development Council (NADC) was pleased to meet with the Canadian Northern Corridor Research Program in February 2021, to understand the ongoing research regarding the feasibility, governance and funding models being explored with respect to a pan-Canadian northern corridor.

The NADC supports your organizations ongoing efforts to identify northern transportation and utility corridors, and considerations for development through robust, evidence based research and analysis.

We look forward to your future reports, engagement and discussion on northern corridor development.

Sincerely,

David Hanson

Chair, NADC

MLA for Bonnyville-Cold Lake-St. Paul
